LILIPUT

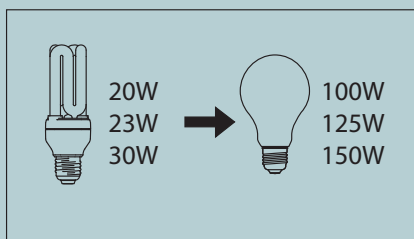

Fabricated from unbelievably compact and shorter WL tubes, we are proud to introduce to you the new MEGAMAN® LILIPUT series in 20W, 23W & 30W. The size of these lamps are so small that they can be comparable in size to similar CFLs in the market.

30Watt/E27 23Watt/E27 20Watt/E27

PRODUCT FEATURES:

• Direct Replacement of High Wattage GLS Bulbs

Besides being compact in size, the new MEGAMAN® LILIPUT series in WL tubes are capable of producing lighting results that are comparable to 100W, 125W and 150W incandescent bulbs. This is made possible with our constant improvement in lamp-tube technology that results in greater illumination at the lowest possible wattage of 20W, 23W and 30W.

Conversion Table (MEGAMAN® ESL Vs. Incandescent)

• Lamp-tube Protector

The LILIPUT series are equipped with an ingenious lamp-tube protector to reduce the fragility of the tubes and also helps reduce glass breakages. This equates to enhanced durability

• Inexpensive Solution for Strong Lighting Applications

Low in power consumption with long operating life of 10,000 hours, the LILIPUT series is one of the most economical solution for areas where intense illumination is required.
